DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Internet (claims 1 and 6) , subsidized ads and e-mails (claims 3, 5 and 7-15) , plurality of ad servers (claims 16, 17) , displaying the ads (claims 19-29 and 31-32), identifying the storage location (claims 18, 30 and 33) downloading sessions for the ads (claim 34), image of the ads (claims 35, 36), cookie containing client information (37-40, 42-45, 47, 48, 50-53, 68-72, 86 and 87) , merging of the datafield (claim 46), identity of the software installed (claims 49, 59-62), statistics for the advertisements that were displayed (claim 67), playlist check interval (claims 73-77), ad history (claim 79), identifying if the client device can be mixed with the other playlists (claim 83), identifying the selection of the advertisements (claims 84-85), creating ad click web page (claims 88-90 and 94), creating user friendly title for each ad, (claims 92-93), creating an ad type for each ad, plurality of playlists (claims 95, 96).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
